Expertise Solution

- At **AGFL**, you will be endowed with excellent services by industry's leading professionals having extensive work experience with leading worldwide retail stores and brands. Our corporate strategy necessitates that we exceed your expectations in the form of value, quality and style. It will be done having a clear understanding of your fundamental business requirements and providing strategic advantages being your business partner.

ARRANGING VENDORS

- Arranging vendors is crucial and therefore we put maximum thoughts while selecting manufacturers for our valued clients. We have a large network of modern and high quality sweater and circular knit factories with infrastructure of spinning, dyeing, knitting and processing facilities. Our aim is to allocate the appropriate manufacturers to suit our customers' best interest. Our vendors are categorized as A, B & C and offer our work order as per customer's requirement. We have in our list some excellent vertically oriented compliant factories producing

apparels for world renowned brands.

- We assess factories in terms of
 - product range,
 - quality of the products,
 - production capacity,
 - facilities,
 - financial capability,
 - technology orientation,
 - man power,
 - working conditions,
 - managerial efficiency and
 - the overall quality policy of the vendors.

Once our initial assessment is conducted, we exchange information with our principals and make an informed decision in approving selected vendors.

•

SAMPAL DEVELOPMENT

AGFL arranges development of different types of samples like prototype, pre-production, photo, size-set, salesman sample arrangements of approval for samples and patterns, grading to all required size range and size sets and production markers. Sample development includes variety of sweaters-shirts, shirts, shorts, jackets, formal wear, track suits, boxers, blouses, camisoles, skirts, t-tops, night wear, intimate wear, knit tops, children wear, cargos, trousers, denims.

- We provide samples that are developed to incorporate colors, fabrics and styles based on the requirements of our buyers. We manufacture samples in quantities as required by our customers. By offering this essential service, we sharpen the marketing efforts of our buyers in their region by giving them an edge over their competition.

•

Total Quality Control in order Execution: (Quality Management)

We closely monitor orders from the moment of sampling to the time of

shipment. We provide updated status on sampling, production and shipment to our buyers on a regular basis. A pro-active approach is maintained towards the identification of problem areas and immediate application of corrective measures to ensure timely delivery of products. The detailed physical inspection of the samples selected at random is based on specifications of the buyers and cover criteria like design / style, shrinkage, accessories, appearance, markings, color, labeling, material, assortments, workmanship, measurements, packing etc.

-

MONITORING

- AGFL monitors manufacturing manually and technically, from the yarn –weaving –fabric stages to finish product, on site in order to closely track your production to ensure that it adheres to your standards and schedule and keep you regularly updated with your production. We identify any risk factors in the production of garments and discuss these risk factors with the manufacturer to resolve the problem. We hold production meetings with the production staff before launching bulk production to ensure that all comments given prior to production approval will be implemented in production and that all possible problems are discussed and corrective measures are implemented during production.

QUALITY ASSURANCE

- We maintain international AQL standard requirements from the yarn – weaving fabric stages to finish product. All our highly professional quality control personal will ensure that all production run in accordance to AQL standard in order to eliminate any dissatisfaction and save you money and time. Please note during production our QC personnel always stationed at manufacturing sites.
We conduct quality control on all sizes and colors at three stages:
 1. At the initial input stage
 2. When 5% to 50% of the order has been completed
 3. Random check done at the packing stage.
- Our company strictly controls the mass goods quality by knitting, dying procedures to guarantee the fabric quality be good sense of touch and meantime meet the azo free, formalin free green products standard. After getting all the approvals of our size samples, style samples, color dips and other details from the buyer we are going for the mass production.
Our Q.C. team will start inspection from knitting, dying, checking the paper pattern before cutting, during making and packing and metal detect and shipping marks and etc. Meantime, we strictly control the snap and other accessories quality to guarantee the goods have no harm to the babies. All the products will pass the metal detector before packing into the cartons. We have the similar strict policy on controlling the quality standard of the fabric for Adult garments orders .
QC service takes place before the bulk fabric is cut. It consists of the

elements listed below.

- Reporting of fabric and accessories arrival status.
- Visual control of fabrics: weight/m², color, hand feel.
- Forecast of production timing (starting date, assigned capacity, daily output, and finish date).
 - Checking with production supervisors whether they think the style is feasible in conformity with the approved samples. For each issue raised: making a test in the workshop, and reporting the exact results.
 - Checking all the issues listed by the client and reporting results.

LAB TESTING

Quality is emphasized in all the procedures and we follow many quality standards to meet all kind of lab test (Required by the buyer) to ensure that the garments we sell are within the requirements of our buyer.

DOCUMENTATION AND SHIPPING COORDINATION

We at EEL check all shipping documents as per buyer instructions /mentioned on the L/C and ensure that dispatch of documents as per dispatch instructions provided by arrival with intimation to buyers and clearing agents. Shipping documents are checked as per the buyer's instruction and the copy documents are sent to buyers well in advance of the shipment to avoid any
